Professional Profile

Software Engineer and Business Analytics professional with 8+ years of experience designing and delivering scalable, UI/UX-focused, enterprise-grade applications. Earned a Master's in Information Systems and Technology, specializing in data analytics, AI/ML integration, and intelligent system design. Proven track record of building high-performance solutions for global clients and public-sector organizations, translating complex business needs into data-driven, impactful products.

Professional Experience

SOFTWARE ENGINEER III MOVIUS CORPORATION

Mar 2021 - July 2023
Bangalore, India

- Architected and developed **enterprise-grade front-end solutions** for the **Movius Multiline Desktop application** using **Angular (v10-v13), TypeScript, Electron, RxJS, HTML5, SCSS, and JavaScript (ES6+)**, ensuring modular, scalable, and maintainable codebases.
- Led implementation of core communication features including **Voicemail, Group Messaging, and Picture Messaging**, integrating **SIP protocols**, secure messaging workflows, and real-time event handling.
- Designed and maintained **fully responsive, adaptive UIs** supporting **Windows, macOS, iOS (iPhone/iPad), and tablet form factors**, leveraging **CSS Flexbox/Grid, media queries, and component-driven design systems**.
- Integrated **RESTful APIs, Microsoft Teams APIs, Microsoft Contacts Sync and SQL Database** while contributing to **Movius Multiline platform** with a strong focus on security, compliance, performance, and cross-team collaboration.

SOFTWARE ENGINEER MAVENIR SYSTEMS

Aug 2020 - Feb 2021
Bangalore, India

- Designed and developed **mobile-first, responsive web interfaces** using **Angular/React, TypeScript, JavaScript (ES6+), HTML5, CSS3, and SCSS**, delivering consistent user experiences across **mobile phones, tablets, and desktop platforms**.
- Built and optimized **high-traffic e-commerce workflows** (device catalog, plan selection, checkout, and payments) by integrating **RESTful APIs**, focusing on performance, scalability, and reliability.
- Implemented **localization (i18n)** and **accessibility standards (WCAG)** while applying **responsive design principles and web performance optimization techniques** such as lazy loading and component optimization.

SOFTWARE ENGINEER / BUSINESS DEVELOPMENT MANAGER VIRTULIVE TECHNOLOGIES PVT LTD

Aug 2015 - Jul 2020
Mysore, India

- Full-Stack Developer for **Roombr video conferencing platform**, building **web (Angular 5) and Electron-based desktop applications** enabling online meetings, virtual classrooms, and real-time collaboration.
 - Designed and implemented **UI/UX front-end components**, ensuring **responsive, cross-platform interfaces** for desktop, tablet, and mobile devices.
 - Developed and maintained **real-time communication features** using **WebRTC, SIP protocols, and REST APIs**, optimizing application performance, scalability, and reliability.
 - Served as **Business Development Manager**, generating **10 CR INR (~1.2M USD) revenue**, managing nationwide adoption of the platform, and engaging with enterprise clients and government stakeholders.
-

Technical & Graduate Projects

- **Ensync – Transportation Management System (TMS)**: Developed a **web-based TMS** for a trucking company using **Python, SQL, and web frameworks**, enabling **dispatch management, shipment tracking, and operational analytics**.
 - Developed the module for the **NIE India official website** using **HTML, CSS, JavaScript, and backend services**, with **database integration** for dynamic content rendering and a **responsive, scalable web architecture**.
 - **AI Financial Assistant for Students**: Developed a **machine-learning-based financial advisor** using **Python** to improve financial literacy among school students through **storytelling-based learning**. Implemented **personalized recommendations**, integrated a **MySQL database**, and leveraged **Tableau, AI modules** for data analysis and visualization.
 - **Portfolio Projects**: Designed and implemented **full-stack applications and web-based solutions** to showcase technical skills in **UI/UX design, Angular/React, TypeScript, REST APIs, and cross-platform development**, highlighting hands-on development experience.
-

Education

Master of Science (M.S.) in Information Systems and Technology

California State University, San Bernardino, CA | GPA: 3.66

Bachelor of Science (B.S.) in Information Technology

Sathyabama University, Chennai, India | GPA: 7.9/10

Skills & Technologies

Angular (v5-v13), React, TypeScript, JavaScript (ES6+), Python, HTML5, CSS3/SCSS, Electron, UI/UX Design, MySQL, REST APIs, WebRTC, SIP Protocols, Tableau, Microsoft Teams & Contacts APIs, Power BI, Analytic Tools, Machine Learning Integration, R Studio, Agile/Scrum, Git
